*Over Three
Decades of
Excellence and
Hundreds of
Satisfied
Customers*

Established in 1980 in Sharjah, UAE, by Ramesh Hiranandani, a Mechanical Engineer from India, **Hira Industries LLC** has now become one of the most preferred supplier for products related to the MEP and civil construction industry.

Utilizing the two decades of representing industry leaders in the Middle East, **Hira Industries L.L.C** made its foray in the manufacturing sector, by setting up the only adhesive foam tape conversion factory in the region. This division now produces a wide range of self adhesive tape used in numerous applications.

Expansion further continued by setting up **Diamond Pipe Supports** factory in India, and a fully automated **Rubber Products** factory in Dubai.

Feeling the need for high quality ducting accessories, **Aeroduct Division** was established in 2007, with state-of-the-art automation, and remains the only factory in the region to utilize this technology.

Hira Industries set up their largest greenfield project, **Aerofoam**, in the peak of the recession. **Aerofoam** is located in a purpose built factory in Ras Al Khaimah and manufactures Closed Cell Rubber Insulation and Cross Linked Closed Cell Polyolefin Insulation .

Hira Industries also represents **Dynair™** range of Industrial and Domestic Ventilation fans, Air Handling Units, Smoke Vents and Ecology Units

Today , Hira Industries LLC employs over 1000 people, in their offices in UAE, Doha, Saudi Arabia, Kuwait, Oman and India. In addition to the offices, all products of the **Hira Group** are sold through a network of professional distributors across Middle East, Africa and India.

Message from the Shareholders

“At Hira we provide our customers with the most innovative and flexible solutions for their needs in the building and construction industry.

Our employees have the right experience in their field to service our customers in each and every product line. We always believe in exceeding every customer’s expectation by providing the best service within our industry.

We have invested in some of the best technologies in production for our HVAC, Rubber, Adhesive Tapes and Insulation business to provide our customers with the highest quality products in our industry”

Mission

‘Hira Industries’ is dedicated to provide customers in the construction sector with products of the highest quality, by forging successful partnerships with them, exceeding their expectations and gaining their trust through outstanding performance by every member of our team. We provide work environments where our employees can meet their potential and thrive in an atmosphere of professionalism. Our aim is to become the ‘Employer of Choice’ within the Building Supply Industry in the IMEA (India, Middle East and Africa) region.

Vision

‘Hira Industries’ aim is to provide value added products and services in the niche building products industry. We aim to be the market leaders in the segments and the regions we choose to compete in.

DUBAI SME 100,
2013

HVAC Accessories
Supplier of the Year 2014

AEROFOAM®

A complete range
of environment
friendly
**insulation solutions
to meet every
need**

Hira Industries LLC embodies the factories for the rubber insulation, **Aerofoam NBR** and for the cross linked polyethylene insulation, **Aerofoam XLPE**.

In both products, Hira Ind. LLC controls the full manufacturing process from foam extrusion up to any value adding productive activity: lamination, coating, compounding, conversion etc. Hira Ind. LLC is the fastest growing foam producing company from the GCC area, offering a full range of quality products for the HVAC segment.

The permanent interest for new product developments, the need of maintaining a competitive price in the market and the wish to offer innovative quality products make Hira Ind. LLC one of the few reliable solution oriented players in the GCC, African and Indian markets.

Hira Ind. LLC is committed to design, produce and customize new generation thermal and acoustic insulation foams used in the main HVAC fields.

AEROFOAM[®]-XLPE

POLYOLEFIN INSULATION

Closed cell cross linked polyolefin foam suitable for condensation control, thermal insulation and sound absorption.

APPLICATIONS

Chilled water pipes
Ventilation
Hospitals
Food & Beverage industry
Pharmaceutical plants.

PROJECTS

Sofitel Hotel, Palm Jumeriah-Dubai - UAE
Al Bateen Tower, Dubai - UAE
Bay Central, Dubai Marina - UAE
Hospital Franco Emirien, Abu Dhabi - UAE
Marina Bay, Abu Dhabi - UAE
Grand Flamingo Hotel, Abu Dhabi - UAE
Mall of Avenues, Kuwait
Bin Samik Tower, Doha - Qatar
Banadar Hotel, Manama - Bahrain

AEROFOAM[®]-NBR

RUBBER INSULATION

Closed cell elastomeric foam suitable for condensation control, thermal insulation and sound absorption;

APPLICATIONS

Refrigeration
Air Conditioning
Oil & Gas Industry
Ship Building
Ventilation

PROJECTS

Sofitel Staff Accommodation, Dubai - UAE
Hatta Border Check Post, Dubai - UAE
Al Jurf Center, Ajman - UAE
Burj Residences Plot 58-59, Dubai - UAE
Football Pitch Facility Bldg, Dubai - UAE
Jasam Tower, Abu Dhabi - UAE
Golf Garden, Abu Dhabi - UAE
2080 Villas at Falah Community, Abu Dhabi - UAE
Al Fattan Hotel Eng., Abu Dhabi - UAE
King Abdullah Financial District, Saudi Arabia

Total Production capacity is **6,000,000** m² /year
Aerofoam factory in RAK spread over **125,000** sq/ft
In India (Pune), Aerofoam plant is spread over **100,000** sq/ft
Hira Industries LLC employs over **1000** people

Industries We Serve:

We manufacture different types of Insulation products which are applicable into the following industries:

INDUSTRIAL: Water Tank Insulation, Sealings- Gaskets

SPORTS: Child Matts, Yoga Matts, Wall Impact Protection

CONSTRUCTION: Roof Insulation, Joint Fillers, Floor Underlay, Expansion Joints

SOUND INSULATION: Acoustic Insulation, Sound Lagging

THERMAL INSULATION: Tubes, Rolls & Sheets

We can customize products according to customer requirements

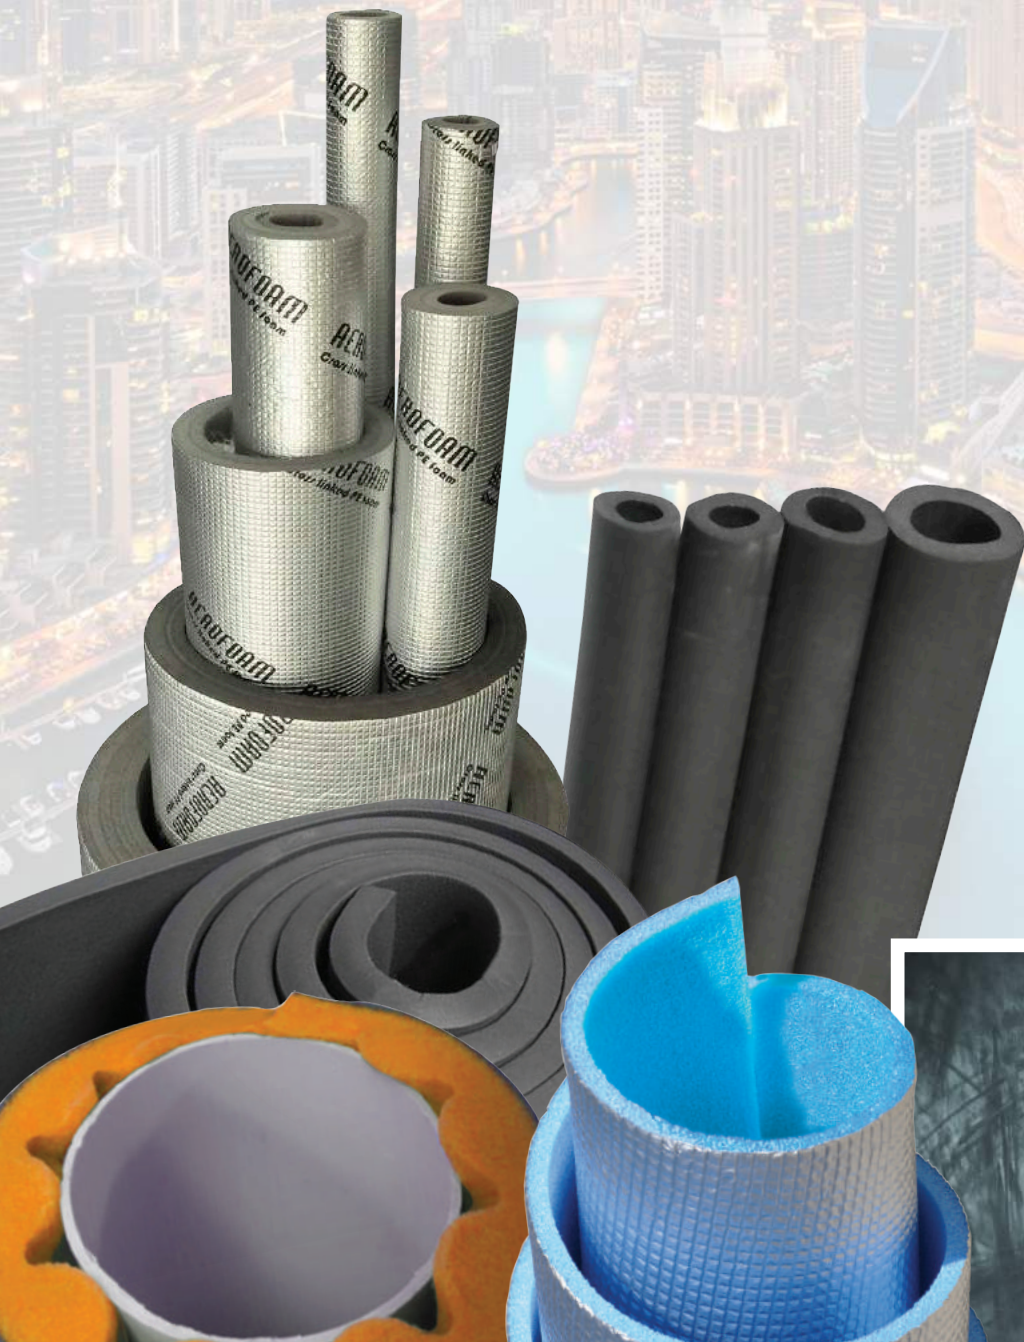

Our product are certified according to international standard that include
ASTM, ISO, CFC & HCFC, Class O, BS 6853, AS 1530.3

Certified by Intertek for ISO 9001:2008, ISO 14001:2004 and OSHAS 18001:2007
